SEGMENT ANALYSIS AND RECOMMENDATIONS

Conversion Rate by job

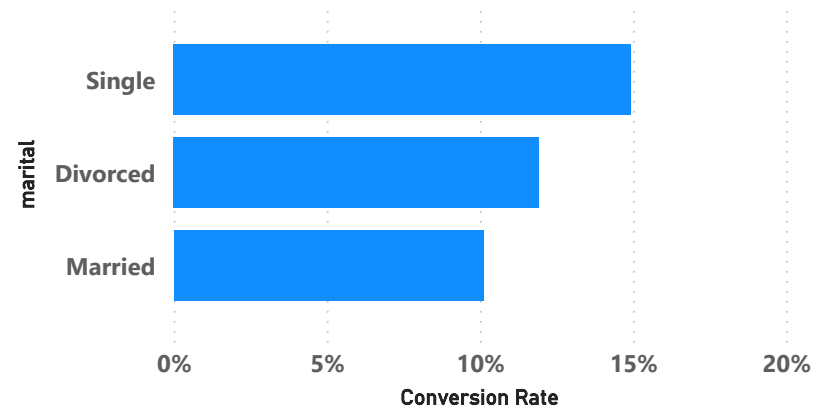

Conversion Rate by education

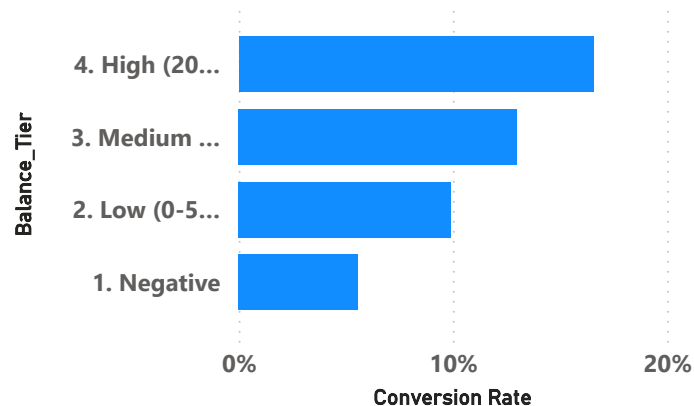

Key Insights:

- Overall conversion rate: 11.7%
- Major drop-off between Responsive (36K) and Converted (5K)
- Cellular outperforms telephone and unspecified channels
- 4+ contacts reduce conversion (7.4% vs 14.6% for first contact)
- Prior campaign success = 64.7% conversion (5x average)
- Students, retirees, and high-balance clients convert best
- Conversion rate trending upward 2008→2010

Conversion Rate by marital

Conversion Rate by Balance_Tier

Recommendations:

- Prioritize cellular contact channel
- Limit follow-ups to 2-3 contacts
- Re-target clients with prior campaign success
- Focus outreach on students, retirees, and high-balance customers
- Time campaigns toward year-end
